

GVD Product Update and Discontinuation Notice

Dear valued customers,

Thank you for your continued support and patronage with GVD. We would like to inform you of some important updates regarding our products, in alignment with the latest Supermicro policy and our product roadmap.

In response to the updated Supermicro product policy, we are pleased to announce that the following products will be upgraded to **32GB** of memory:

Part Name	Valid Date From
M6024	2025/04/01
M6016	2025/04/01
M6012	2025/04/01

This upgrade is part of our commitment to enhancing product performance and meeting the evolving needs of our customers

As part of our product evolution strategy, the following models will be discontinued:

Part Name	Last Date for Order	Alternative
E4200	2025/04/01	VMS 4.0 Suite equally effective
D4200	2025/04/01	VMS 4.0 Suite equally effective
E2200	2025/04/01	VMS 4.0 Suite equally effective

Moving forward, the functions previously offered by these hardware models will be delivered in the form of VMS 4.0 Suite, providing greater flexibility and scalability. We highly recommend utilizing the following as the hardware platform to run the VMS 4.0 Suite, ensuring optimal performance and compatibility.

Brand	Model
HP	Z1 G9 + RTX 4060(VGA card)
Dell	Precision 3680

If you have any questions regarding the updates or need assistance in transitioning to the new software solutions, please do not hesitate to contact GVD at sales@gvddigital.com. We are always here to support you and ensure a smooth transition to our latest technologies.

Yours faithfully,

Sinny Liao
Senior Product Manager
